

## Applications

- **Bulk Transfer**
  - Sub Primals
  - Pork Loins, Hams, Bellies
  - Grinds
  - Bulk Cheese
  - Produce
  - Cereal
  - Industrial Powders
  - Metal Parts
  - Plastic Bottle Barrier Pre-forms
- **Product Holding**
  - Stick Pepperoni
  - Salami
  - Deli Meat Logs
  - Snacks

## Advantages

- Shelf life extension.
- Reduced labor cost
- Reduced floor space
- Reduced risk of contamination
- Sealed, tamper evident package
- No bottle necks because of different SKU's
- Reduced Packaging Cost

Modified atmosphere packaging since

**1972**

- **Design Features**

- **Hygienic Design** - Clean-in-place system for internal cleaning. External wash-down capability. Stainless steel snorkels
- **Reproducible Results** - All manifold sizes equipped with positive vacuum gas seal design to prevent snorkel leak back. PLC controls for multiple cycles and consistently low residual O<sub>2</sub>. Built-in multiple cycles for custom applications. Self contained vacuum pump
- **Operator Safety**-Dual electronic finger swipe start buttons
- **Seal Integrity** - Digital temperature controls with chisel point seal bar. Standard bag stretchers eliminate wrinkles ensuring consistent seals. Choice of impulse wire or hot bar sealing systems. Seal only feature allows operator to put a second seal or bag for added integrity.
- **Flexibility**- Specific option packages for a wide range of applications for overhead mounting systems. Gas accumulator tank sized to packaging requirements, dwell time frequency for product respiration, floating machine head for random fill levels and bin sizes.
- **Custom options**-Sealing manifolds in 100" (254 cm), 70" (178 cm) and 57" (145 cm) Vacuum pump and filters for wet and dry applications. Embossing date coders.
- **PLC Controls**-PLC controls provide a wide range of functional settings.
- **Floor Mounted Design** is also available is also available for low ceiling height plants.
- **CE Approved**
